PERMIT - Continued

GENERAL CONDITIONS:

1. In no way does this permit relieve the company from the responsibility of controlling emissions at all times in accordance with Regulation 401 KAR 63:010, Fugitive emissions.
2. This permit shall become null and void after five years following the date of issue. Application for renewal shall be made at least six months prior to the expiration date.
3. The company shall maintain and make available for inspection by this Division all production records necessary to assure that the allowable hourly production rate will not be exceeded.
4. In no way does this permit relieve the permittee from compliance with all applicable emission and air quality standards.
5. The haul road shall be sprayed with water on a regular basis so as to comply with the requirements specified in Regulation 401 KAR 63:010, Fugitive emissions.
6. The opacity of emissions from all affected facilities as defined in 401 KAR 59:010, New process operations, shall not equal or exceed 20%.
7. All control devices shall be properly maintained, kept in good operating condition, and used in conjunction with their associated processes at all times.
8. Particulate emissions from the Rotary Dryer shall not exceed 59.79 lbs./hour or 38.27 tons/year.
9. Fuel usage shall not exceed 230,400 gallons of #2 Fuel Oil and the sulfur content shall not exceed 0.5%.
10. All previous permits issued to this source at this location are hereby null and void.
